GENERAL TOPOLOGY AND ITS APPLICATIONS

A journal devoted to set theoretic, axiomatic and geometric topology

The journal is published in one volume of four issues per year

1974: VOLUME 4

The subscription price is Dfl. 80.00 (about US$ 28.10), including postage.

Managing Editor: **S. P. FRANKLIN,** Memphis

Advisory Board: **R. D. ANDERSON,** Baton Rouge
K. MORITA, Tokyo
S. MARDEŠIĆ, Zagreb
YU. SMIRNOV, Moscow
A. H. STONE, Rochester

This journal is primarily concerned with publishing original research papers of moderate length, although a limited number of selected survey or expository papers are also included. The mathematical focus of the journal will be that suggested by the title. To allow for future growth in the field, a non-specific delineation of topics in the field includes the axiomatic, set-theoretic and geometric facets of topology as well as interactions between general topology and other mathematical disciplines, e.g. topological algebra, topological dynamics, functional analysis, category theory, etc.

JOURNAL OF PURE AND APPLIED ALGEBRA

The journal is published in two volumes per year (3 issues per volume)

1974: VOLUME 4-5

The subscription price is Dfl. 174.00 (about US$ 61.10), including postage.

Managing Editors: **P. J. FREYD,** Philadelphia
A. HELLER, New York

The journal concentrates on that part of algebra likely to be of general mathematical interest: algebraic results with immediate applications, and the development of algebraic theories of sufficiently general relevance to allow for further applications.

the most widely used scientific information system in the world

Try any edition free for 4 weeks.

Nearly 200,000 professionals of all types use the *Current Contents*® system every week to locate and obtain new journal articles relevant to their work. And they've got good reasons.

Current Contents is the most comprehensive, least complicated way to make sure you learn of new developments in your field while they're still new. Just an hour a week spent scanning any edition of *Current Contents* lets you sort through everything that's published in a thousand or more journals. With *CC*® it's easy to pick out just those articles you want to read. Without handling the journals. Without increasing your journal subscription expenses.

Find out why so many people like you use *Current Contents*. Get more information and a free 4-week subscription by completing the coupon. ©1973 ISI
